Treatment of Control Premiums in the Delaware Courts.

How the Purpose of the Valuation Affects Minority Discounts or Control Premiums.

Summary.

Chapter 3: Empirical Data Regarding Minority Discounts and Control Premiums.

Premiums Paid in Acquisitions.

Identifying Industries with Higher or Lower Control Premiums.

Caveats Regarding Use of Control Premium Data.

Are Control Premiums too High?

Percentage Discounts from Net Asset Value.

Summary.

Chapter 4: Minority Discounts and Control Premiums in the Courts.

Gift, Estate, and Income Tax Cases.

Discounts for Lack of Control in Employee Stock Ownership Plan Cases.

Dissenting Shareholder Cases.

Shareholder Oppression Cases.

Marital Dissolution Cases.

Bankruptcy Case.

Summary.

Chapter 5: Discounts for Lack of Marketability for Minority Interests: Concept and Evidence.

Public Market Benchmark for Marketability.

Empirical Evidence to Quantify Discounts for Lack of Marketability.

Restricted Stock Studies.

Pre-Initial Public Offering Discount for Lack of Marketability Studies.

Courts' Aversion to "Benchmarking".

Regulatory and Court Recognition of Empirical Marketability Discount Studies.

Summary.

Chapter 6: Synopsis of Restricted Stock Studies.

Securities and Exchange Commission Institutional Investor Study.

Gelman Study.

Trout Study.

Moroney Study.

Maher Study.

Standard Research Consultants Study.

Silber Study.

FMV Opinions Study.

Management Planning Study.

Johnson Study.

Columbia Financial Advisors Study.

LiquiStat Database.

Summary.

Chapter 7: LiquiStat™ database (Restricted Stocks, warrants and convertible securities).

Restricted Stock as a Basis.

Biases Beyond Illiquidity in Restricted Stock Studies.

How LiquiStat™ is Different.

Warrants.

Convertible Securities.

Summary.

Chapter 8: Blockage Discounts.

Blockage Is Distinct from Restricted Stock.

Factors to Analyze in Quantifying Blockage Discount.

Must Consider Ways of Selling Stock.

“Price Pressure” and “Market Exposure”.

Block Buyer Could Ameliorate Blockage Discount.

Blockage Discounts Recognized in Estate and Gift Tax Regulations.

Blockage Discounts in U.S. Tax Court.

Financial Accounting Standards that May Affect Blockage Discounts.

Blockage Discounts Used to Estimate Illiquidity Discounts.

Summary.

Study #1: Adjusted Study, January 1980–June 1981.

Study #2: Adjusted Study, January 1985–June 1986.

Study #3: Adjusted Study, August 1987–January 1989.

Study #4: Adjusted Study, February 1989–July 1990.

Study #5: Adjusted Study, August 1990–January 1992.

Study #6: Adjusted Study, February 1992–July 1993.

Study #7: Adjusted Study, January 1994–June 1995.

Study #8: Adjusted Study, November 1995–April 1997.

Study #9: Adjusted Study, Dot-Com Companies, May 1997–March 2000.

Study #10: Adjusted Expanded Study, May 1997–December 2000.

Summary.

Chapter 10: Valuation Advisors Discount for Lack of Marketability Study.

Description of Study.

Results of Study.

Summary.

Chapter 11: Factors Affecting Discounts for Lack of Marketability for Minority Interests.

Size of Distributions.

Prospects for Liquidity.

Pool of Potential Buyers.

Risk Factors.

Summary.

Chapter 12: Discounts for Lack of Marketability for Controlling Interests.

Discounts for Lack of Marketability for Controlling Interests: a Controversial Concept.

“Control, Marketable” Is an Oxymoron.

Bases from Which Controlling Interest Discounts for Lack of Marketability May Be Deducted.

Factors Affecting Controlling Interest Discounts for Lack of Marketability.

Public Versus Private Company Acquisition Multiples.

Court Treatment of Controlling Interest Discounts for Lack of Marketability.

Summary.

Chapter 13: The Quantitative Marketability Discount Model A Shareholder Level DCF Model.

Introduction.

The Structure of the Shareholder Level DCF Model.

A Visual Representation of the Shareholder Level DCF Model.

Factors Contributing to Marketability Discounts.

Base Case (Shareholder Value Equal to Enterprise Value).

Impact of Agency Costs.

Impact of Incremental Holding Period Risks.

Combined Impact on Overall Marketability Discount.

Review of Analysis.

Summary.

Chapter 14: Marketability Discounts in the Courts—Minority Interests.

Gift and Estate Tax Cases.

Employee Stock Ownership Plan Case.

Dissenting Shareholder Cases.

Minority Oppression Cases.

Marital Dissolution Cases.

Summary.

Chapter 15: Marketability Discounts in the Courts—Controlling Interests.

Gift and Estate Tax Cases.

Marital Dissolution Cases.

Chapter 16: Voting versus Nonvoting Stock.

Voting versus Nonvoting Stock Scenarios.

Empirical Studies Show Little Differential for Small Minority Interests.

Transactions Involving Premiums for Control Blocks.

Court Cases Involving Voting versus Nonvoting Stock.

Summary.

Chapter 17: Key Person Discounts and Premiums.

Empirical Evidence Supports Key Person Discount.

Internal Revenue Service Recognizes Key Person Discount.

Factors to Consider in Analyzing the Key Person Discount.

Quantifying the Magnitude of the Key Person Discount.

U.S. Tax Court Cases Involving Key Person Discounts.

Key Person Discounts in Marital Dissolutions.

Key Person Discounts in Other Types of Cases.

Summary.

Chapter 18: Discounts for Trapped-In Capital Gains Taxes.

Rationale for Trapped-In Capital Gains Tax Discount.

“General Utilities Doctrine”.

Tax Court Recognizes Trapped-In Capital Gains.

Internal Revenue Service Acquiesces to Trapped-In Capital Gains Discount.
