*To all the professionals who preceded us in the research and analyses on discounts for lack of marketability. You helped lay the groundwork for us. Thank you.*

*James R. Hitchner*

*R. James Alerding*

*Joshua B. Angell*

*Katherine E. Morris*

*To my son, Jason Earle Hitchner:*

*James R. Hitchner*

*To my wife, Laura, without whose patience and love this would not have happened; and to my family and to the late John McCormick, may he rest in peace.*

*R. James Alerding*

*To my father, for everything you've done and for always believing. To my mother, for never letting up and for always being there. And, to my brother, Nick, because, without you, life simply wouldn't be the same. I love you all so deeply. This book is forever dedicated to you all.*

*Joshua B. Angell*

*To my parents, John and Elizabeth Francisco.*

<b>CHAPTER 3</b>	
<b>Levels of Value – A Conceptual Framework</b>	13
<b>3.1</b> Levels of Value – Old View	13
<b>3.2</b> Levels of Value – Newer View	14
<b>3.3</b> Levels of Value – Newest View	15
<b>3.4</b> Levels of Value and Liquidity/Marketability Summary	17
<b>CHAPTER 4</b>	
<b>Entity-Level Versus Shareholder-Level Discounts</b>	19

<b>CHAPTER 5</b>		
	<b>Approaches and Methods of Quantifying DLOM</b>	21
	<b>5.1</b> Qualitative Approaches	21
	<b>5.2</b> Quantitative Approaches	22
<b>CHAPTER 6</b>		
	<b>Overview of Restricted Stock</b>	29
	<b>6.1</b> Definition of Restricted Stock	29
	<b>6.2</b> Rule 144	31
	<b>6.3</b> History of Rule 144	34
	<b>6.4</b> Definition of an Affiliate	39
	<b>6.5</b> Registration Rights	40
	<b>6.6</b> Tolling Rules	42
	<b>6.7</b> Liquidating Restricted Stock Positions	43
	<b>6.8</b> Hedging Restricted Stock	43
	<b>6.9</b> Private Company Stock Versus Restricted Stock	45
	<b>6.10</b> Conclusion	45
	<b>6.11</b> Addendum - Rule 144 Examples	46
<b>CHAPTER 7</b>		
	<b>Characteristics of Companies Issuing Restricted Stock</b>	49
	<b>7.1</b> Reasons for Issuing Restricted Stock	49
	<b>7.2</b> Industry Characteristics	50
	<b>7.3</b> Size Characteristics	52
	<b>7.4</b> Volatility Characteristics	54
	<b>7.5</b> Valuation Characteristics	56
	<b>7.6</b> Profitability, Dividends, and Distress Characteristics	58
	<b>7.7</b> Trading Exchange Characteristics	60
	<b>7.8</b> Conclusion	62
<b>CHAPTER 8</b>		
	<b>Discounts on Restricted Stocks</b>	63
	<b>8.1</b> Restricted Stock Studies	64
	<b>8.2</b> Dispersion of Discounts	66
	<b>8.3</b> Computations of Discounts	68
	<b>8.4</b> Conclusion	70
<b>CHAPTER 9</b>		
	<b>Hypotheses Explaining Discounts on Restricted Stock</b>	71
	<b>9.1</b> Control and Monitoring Cost Hypothesis	71
	<b>9.2</b> Asymmetric Information Hypothesis	72
	<b>9.3</b> Assessment of True Value Hypothesis	72
	<b>9.4</b> Capital Scarcity Hypothesis	73
	<b>9.5</b> Managerial Entrenchment Hypothesis	73
	<b>9.6</b> Conclusion	74

<b>CHAPTER 10</b>	
<b>Factors Affecting Restricted Stock Discounts</b>	75
<b>10.1</b> Volatility	76
<b>10.2</b> Liquidation (Holding) Period	78
<b>10.3</b> Registration Rights	83
<b>10.4</b> Block Size	86
<b>10.5</b> Placement Size	89
<b>10.6</b> Firm Size	89
<b>10.7</b> Profitability	94
<b>10.8</b> Dividends	96
<b>10.9</b> Distress/Altman Z-Score	98
<b>10.10</b> Valuation Multiples	100
<b>10.11</b> Trading Exchange	103
<b>10.12</b> Warrants	105
<b>10.13</b> Market Reference Price	110
<b>10.13</b> Market Conditions	113
<b>10.14</b> Type of Investor	113
<b>10.15</b> Conclusion	114
<b>CHAPTER 11</b>	
<b>Methods for Calculating DLOM Using Restricted Stock</b>	115
<b>11.1</b> Benchmark Study Method	115
<b>11.2</b> Specific Transactions Method	116
<b>11.3</b> Quintile-Based Method	116
<b>CHAPTER 12</b>	
<b>Review of Large Block Data</b>	121
<b>12.1</b> Illiquidity Hypothesis	121
<b>12.2</b> Managerial Entrenchment Hypothesis	124
<b>12.3</b> Problems with Large Block Data	125
<b>12.4</b> Researching Large Block Transactions	126
<b>12.5</b> Case Study Example	127
<b>12.6</b> Conclusion	130
<b>CHAPTER 13</b>	
<b>Criticism of Restricted Stock Studies</b>	131
<b>13.1</b> Lack of Current Market Data	131
<b>13.2</b> Risky Issuer Characteristics	132
<b>13.3</b> Discounts Imply Unusually High Returns	133
<b>13.4</b> Discounts Reflect Other Economic Factors	133
<b>13.5</b> Hedging Strategies Should Result in Lower Discounts	136
<b>13.6</b> Conclusion	136

# About the Editors

**James R. Hitchner, CPA/ABV/CFF, ASA**, is the managing director of Financial Valuation Advisors, Inc. in Ventnor City, NJ. He is also president of the Financial Consulting Group, LLC, a national association of professional services firms dedicated to excellence in valuation, financial, and litigation consulting. He is CEO of Valuation Products and Services, LLC, a company that develops educational resources for valuation analysts and fraud/forensics practitioners. He holds the AICPA specialty designations of Accredited in Business Valuation (ABV) and Certified in Financial Forensics (CFF) and is an Accredited Senior Appraiser (ASA) with the American Society of Appraisers. Mr. Hitchner has over 35 years of experience in valuation services. He has often testified as a qualified expert witness on valuations in federal and state courts in numerous states. He has coauthored over 20 courses, taught over 60 courses, published over 100 articles, and made over 200 conference presentations. Mr. Hitchner is coauthor of the book *Valuation for Financial Reporting: Fair Value, Business Combinations, Intangible Assets, Goodwill, and Impairment Analysis* (2011); editor/coauthor of the book *Financial Valuation Applications and Models (FVAM)* (2017); and coauthor of the book *Financial Valuation Workbook (FVW)* (2017) — all published by John Wiley & Sons. He is coauthor, along with Shannon Pratt and Jay Fishman, of *PPC's Guide to Business Valuations* (2017), published by Thomson Reuters. He is also coauthor of *Hitchner Pratt Fishman, A Consensus View Q&A Guide to Financial Valuation*, (2016), published by Valuation Products and Services, LLC. He is editor in chief of *Financial Valuation and Litigation Expert*, a bimonthly journal that presents views and tools from some of the leading experts in valuation, forensics/fraud, and litigation services. He is an inductee in the AICPA Business Valuation Hall of Fame and a two-time recipient of the AICPA's Business Valuation Volunteer of the Year award. He was also one of the only four members of the original AICPA Business Valuation Standards Writing Task Force and served the entire six years up to the June 2007 official release of the standards. Mr. Hitchner is past chairman of the Business Valuation Committee of the Georgia Society of CPAs, past member of the AICPA Business Valuation Subcommittee, past member of the AICPA ABV Exam Committee, and past chairman of the ABV Exam Review Course Committee.

**Katherine E. Morris, MBA, ASA**, is the president of Morris Valuation Consulting, Inc., providing valuation and consulting services to a variety of industries. With over 20 years of experience, Ms. Morris has provided valuation analyses of business and intangible assets for diverse purposes, including financial reporting under Statement of Financial Accounting Standards Nos. 805 and 820 and reporting under IFRS; estate and gift tax reporting; merger and acquisition planning; and in the context of litigation and property tax disputes. Ms. Morris has performed work on behalf of the Internal Revenue Service and the Attorney General of the State of Georgia, as well as work to be presented to the Internal Revenue Service, the Department of Justice, and Office of the Inspector General. Through the course of her career, she has performed analyses on a wide variety of entities including hospitals, physician practices, imaging centers and biotechnology companies, auto dealerships, technology and management consulting companies, telecommunication companies, financial institutions, insurance companies, hotel and restaurant chains, building and consumer products retailers, wholesalers, manufacturers, and entities in the energy industry. Ms. Morris was formerly with Phillips Hitchner Group, Inc., Ernst & Young, Financial Valuation Advisors, Inc., and American Appraisal, Inc. She is also a managing director with Valuation Products and Services, LLC, the publisher of this *VPS DLOM Guide & Toolkit*.

# About the Authors

**James R. Hitchner, CPA/ABV/CFE, ASA.** See “About the Editors.”

**R. James Alerding, CPA/ABV, ASA,** is owner of Alerding Consulting, LLC, established in 2012 to provide a wide range of valuation and forensic consulting and general business consulting services. He holds the AICPA specialty designation of Accredited in Business Valuation (ABV) and is an Accredited Senior Appraiser (ASA) with the American Society of Appraisers. Mr. Alerding has over 50 years of financial/accounting/investment experience, including over 35 years of business valuation experience. He has taught over 40 valuation courses, published numerous articles, and made over 100 business valuation presentations. He has been recognized as an expert witness in several states and has testified approximately 500 times in depositions and trials. Mr. Alerding is the author of *Valuation of a Closely Held Business* and *Purchase or Sale of a Closely Held Business* as part of the Tax Advisors Planning Series, published by Research Institute of America, and he coauthored *The Handbook for Divorce Valuations* and *Financial Valuation Applications and Models*, a treatise on business valuation published by John Wiley & Sons. He was a member of the writing task force for the AICPA Statement on Standards for Valuation Services No. 1 (SSVS), is a past member of the of the AICPA Business Valuation Subcommittee, and an AICPA Business Valuation Hall of Fame member.

**Joshua B. Angell, CFA, ASA,** is the senior managing director of the Valuation Advisory Services and Litigation Practice Group of Moore, Ellrich & Neal, P.A., a valuation, consultancy, tax, and accounting services firm located in Palm Beach Gardens, FL. During his employment, Mr. Angell has overseen hundreds of valuations of privately held companies for a variety of purposes, including M&A, shareholder dispute, gift and estate tax, divorce, and eminent domain. Mr. Angell also has developed extensive experience estimating economic damages, including damages for lost profits and loss in business value, valuing intellectual property, and valuing complex securities and derivatives, including options, restricted securities, convertible preferred stock, and mortgage-backed securities. Mr. Angell has been involved in hundreds of complex litigation-related matters and has testified as an expert witness in several cases and arbitrations. His industry experience spans the

retail, wholesale, manufacturing, aerospace, defense, consulting, education, automobile, consumer discretionary, technology, oil and gas, real estate, insurance, and construction sectors. Mr. Angell graduated valedictorian, *summa cum laude* from Florida State University with a BS degree in accounting and finance. Mr. Angell holds the Chartered Financial Analyst designation from CFA Institute and is an Accredited Senior Appraiser (ASA) with a business valuation specialty from the American Society of Appraisers. He is also a Registered Investment Advisor in the State of Florida. Mr. Angell writes extensively on business valuation-related topics, including valuation theory, liquidity, cost of capital, and economic damages, among other topics. In 2016, Mr. Angell was named “40 Under Forty” by the National Association of Certified Valuators and Analysts (NACVA) for his dedication to excellence and his willingness to share his knowledge and experience with the professional valuation community. Mr. Angell is also the founder of The Barrons Group, LLC, a global financial advisory services firm, and the founder and chief investment officer of TBG Capital Management, LP, an event-driven and value-focused investment partnership that he established for purposes of investing in undervalued securities and special situations arbitrage transactions across the capital structure on a global basis.

# PREFACE

The *VPS DLOM Guide and Toolkit* is a powerful tool for considering, calculating, and defending discounts for lack of marketability. While the *Guide* is a powerful source of information and excellent tool in its own right, we suggest use of the accompanying but separate *Toolkit* to maximize this product's usefulness.

This *VPS DLOM Guide* begins by laying a solid foundation. Terms frequently used in the determination of discounts for lack of marketability (DLOM) are clearly defined to strengthen the reader's core understanding of the process. DLOM approaches and methods from both the past and present are explored, including analyses of their strengths and weaknesses.

The *VPS DLOM Guide* presents the most detailed analysis of restricted stock studies ever published, including the important characteristics of the companies who issue such stock. It considers the factors that affect restricted stock discounts and offers methods for calculating DLOM. There are also insightful analyses of the most common restricted stock transaction databases, again with comments on strengths and weaknesses.

The *VPS DLOM Guide* also presents a detailed look at pre-IPO studies and option pricing models. Shareholder cashflow models, including the Quantitative Marketability Discount Model, are addressed, along with other models and studies.

In the Appendices, the reader will find case studies and sample report language for both a dividend and non-dividend-paying company, guiding the reader through the actual process of applying a DLOM. A complete reproduction of the *IRS DLOM Job Aid for Valuation Professionals* is included in this text, allowing for quick and easy reference. An additional excellent reference aid is an appendix of over 90 DLOM-related court cases.

In addition to this *Guide*, the separate *VPS DLOM Toolkit*, available at <http://www.valuationproducts.com/DLOMToolkit.html>, includes 10 Excel models with User Manuals including:

- Restricted stock calculator to allowing for detailed comparison of subject company characteristics to restricted stock transactions, adjusting the data for differences in holding period and volatility between the subject and the transactions. The model incorporates option methodology and includes a qualitative factors assessment tool.
- Frequently used option models for the calculation of DLOM based on subject company specifications input by the user
- A summary version of the QMDM calculator
- All models include report-ready exhibits

We welcome all feedback. If you have comments, suggestions, or a question, please email me at [jhitchner@finvaluation.com](mailto:jhitchner@finvaluation.com).
