About Business Valuation Resources

Any informed stakeholder in business valuation, performance benchmarking, or risk management turns to Business Valuation Resources (BVR) for authoritative market data, training, and expert opinion. Trust BVR for unimpeachable business valuation intelligence. BVR’s databases, publications, and analyses have won in the courtroom and the boardroom for more than 20 years.

Who uses our products?

- Business appraisers
- Certified public accountants
- M&A professionals
- Business intermediaries
- Attorneys and judges
- Private equity professionals and venture capitalists
- Business owners
- CFOs
BVR's deal and market databases are used by a wide variety of financial professionals, including business appraisers, business brokers, M&A advisors, investment bankers, and professionals who work in venture capital.
Welcome to the new generation of private- and public-company transaction comparables for valuation and M&A professionals. **DealStats** is a powerful platform that boasts the most complete transaction details on nearly 40,000 acquired private and public companies.

BVR’s dedicated team of financial analysts rigorously review every transaction in **DealStats**. Whether you are valuing a business, deriving a sale price, benchmarking performance, or conducting fairness opinion research, you won’t find more complete and trustworthy comparable data in any other source.

**Add value to your business with DealStats...**

- Defend your business value conclusions with real-world deals—Get detailed statistics and comprehensive summary reports that include financial ratios, valuation multiples, financial statements, purchase price allocations, and more.

- Customize your search and select the best multiples—Use the robust search functionality to explore up to 199 data points and to perform custom searches to save and revisit anytime!

- See comprehensive financial statements for the most recent year, bolstered by up to four years of historical net sales, EBITDA and SDE values, as well as forecasted net sales, EBITDA, and SDE.

- Get a quarterly analysis of private-company acquisitions—Each quarter, subscribers receive the **DealStats Value Index**, an analysis of private-company acquisitions from **DealStats**.

**DealStats Distribution of Transactions by Sector**

BIZCOMPS

Remove marketplace uncertainty with the most trusted source for “Main Street” private-company transaction data.

BIZCOMPS, a comprehensive online database, is the most thorough and accurate resource for financial details on “Main Street” private companies. This must-have tool includes more than 14,400 deals dating back to 2006 and removes marketplace uncertainty with access to meaningful financial information. Designed for accountants, business appraisers, and business intermediaries, it is the most trusted source for small-company comparables.

The BIZCOMPS Analyzer (included with a subscription) bolsters a user’s confidence in subject-company research like never before. This unique, Excel-based tool greatly improves a user’s ability to select and deselect transactions, complete a detailed analysis, and export custom worksheets to a new Excel workbook.

Enhance your research with BIZCOMPS...

• Support your valuation conclusion with empirical evidence from 21 data fields on over 14,400 transactions, including two valuation multiples

• Bolster your research with the BIZCOMPS Analyzer, an Excel-based tool that computes valuable statistics and ratios

• Search by keyword, NAICS or SIC code, revenue, or sale date, and pinpoint the small-company comparable data you need

• Receive the BIZCOMPS/BVR Deal Review, a PDF publication that summarizes and analyzes general trends, valuation multiples, and operating ratios for transactions in the BIZCOMPS database

Cost of Capital Professional

Quickly get risk-free rates, equity risk premia, size premia, and industry risk premia based on your subject company.

Based on principles of simplicity and transparency, the Cost of Capital Professional platform provides appraisers and financial professionals with the most current cost of capital data available in an easy-to-use format. Quickly get risk-free rates, equity risk premia, size premia, and industry-risk premia based on your subject company’s valuation date and size. Use the buildup method or CAPM to create a cost of equity calculation you can use in your valuation, compute WACC, access a summary document you can insert into your valuation report, and export all of your figures, calculations, sources, and notes into Excel. Subscribers receive access to Industry Betas, a quarterly report that provides levered and unlevered industry betas by industry, subindustry, and geographical region.

Empower yourself with this state-of-the-art platform...

• Simplicity: Get a straightforward and supportable cost of equity figure, and spend less time explaining your methodology choices to clients—and judges.

• Credibility: The Cost of Capital Professional platform relies on the Center for Research in Security Prices (CRSP) market return data set. This is the most respected and widely used basis for 10-decile returns in practice and academia.

• Transparency: You will always see the components of your cost of capital, how the figures were calculated, and the citations of all sources used—everything you need to support your work.

Mergerstat Review

Arm yourself with the most comprehensive M&A statistics and analysis, including the latest activity and deal data by industry.

The annual FactSet Mergerstat Review publication, built and designed for the business valuation and M&A market, is the de facto source for M&A data and analysis. This comprehensive resource delivers data on transactions in which the buyer or seller was a U.S.-based company and covers privately held, publicly traded, and cross-border transactions. It provides extensive M&A analysis and coverage, industry multiples, premiums paid by industry and time period, and more.

The FactSet Mergerstat Monthly Review (a monthly PDF report included with your purchase) delivers the most valuable M&A statistics and analysis, including the latest activity and deal data by industry—ideal for adding insight and impact to valuation reports, pitch books, client presentations, market overviews, and competitive reports.

Add insight and impact to valuation reports with Mergerstat Review...

- Utilize the comprehensive transaction roster organized by industry—thousands of dollars of data in one convenient source
- Arm yourself with insight into trends in prices, methods of payment, premiums, and other critical information related to the overall M&A market. Drill down and compare individual industries with transaction-level detail
- Consult statistics that reveal which industries are most active and what their respective premiums, TIC/EBITDA, TIC/EBIT, and P/E averages are compared to the market as a whole
- New! Industry Analysis chapter that goes along with the FactSet Sectors allows users to perform M&A analysis based on industry spotlights, multiples, premiums, and cross-border activity

Stout Restricted Stock Study

Rely on firsthand, current empirical data to determine a discount for lack of marketability using restricted stock.

The Stout Restricted Stock Study online database, updated quarterly, has 759 rigorously screened restricted stock transactions with up to 60 data fields per transaction. The thoroughly vetted data in the Stout Restricted Stock Study provide empirical support to quantify discounts for lack of marketability (DLOMs) used in the business valuation and investment professions.

Save time with the Stout DLOM Calculator (included with your subscription). This easy-to-use tool allows you to quickly implement the Stout methodology and determine a DLOM that is driven by the financial characteristics of your subject company, as well as the volatility of the market as of your valuation date.

Present your DLOM conclusions with confidence...

- Rely on firsthand, current empirical data—updated quarterly and rigorously screened, each restricted stock transaction includes up to 60 data fields with verifiable details
- Present your DLOM conclusions with confidence—this powerful tool automatically calculates summary statistics for a number of fields to aid in the analysis of the data
- Access to the Stout DLOM Calculator, which performs DLOM methodology based on your subject company
- Save time in deriving your DLOM—use the detailed reports to make comparisons between subject companies and issuers of restricted stock included in the study and automate quintile sorting, comparisons, and calculations
- Access the Companion Guide for all of the details on the data and methodology

Valuation Benchmarking Platform

Harness insight into comparable business valuations like never before with this new benchmarking platform.

BVR’s Valuation Benchmarking Platform (VBP) is a groundbreaking tool that harnesses insight into comparable business valuations like never before. For the first time, you’re able to screen acquisition assumptions made by the leading valuation and investment banking firms in the profession. VBP’s proprietary screening tool allows you to search for valuations of companies that match your subject company—using dozens of customizable criteria. This robust platform is an ideal add-on to any financial data platform—like DealStats or CapIQ—so you can see for the first time what conclusions other top analysts reached—and how they got there.

Explore the best private-company transaction comparables used by your peers...

- See the most appropriate valuation inputs and data employed in similar valuations
- Gain insight into how—and when—other financial analysts chose the various income, market, and asset approaches
- Get live links to all the source documents, including valuation reports, valuation opinions, and board books
- Compare your multiples, cost of capital, normalized financial forecasts, and other business valuation assumptions with recent work accepted by the SEC and other regulatory and reporting entities

Butler Pinkerton Calculator

Objectively quantify total risk using real-time, empirical market observations.

The Butler Pinkerton Calculator offers empirical data for total cost of equity (TCOE) and company-specific risk premiums (CSRP)—a first for the business valuation profession. This cutting-edge, web-based tool produces real-time beta calculations based on your choice of five different market proxies and allows you to use the empirically derived results to support and defend your subject company’s cost of equity. Excel with the Butler Pinkerton Calculator while your competition relies on subjective guesses devoid of empirical evidence.

“They may have created a tool for valuation professionals that is ... possibly better than anything else out there for the determination of a discount rate. The Butler Pinkerton Calculator is a tool that every valuation analyst must have in his or her toolbox. This is perhaps one of the best contributions to our profession in a long time.”

– Gary Trugman, CPA/ABV, MCBA, ASA

Get empirical, market-based support with the Butler Pinkerton Calculator...

- Quickly confirm cost of equity conclusions calculated from other sources or methods and compute company-specific risk
- Save time and money—the Butler Pinkerton Calculator performs in minutes the work that would otherwise take hours to complete
- Get empirical, market-based support for U.S., German, and Canadian companies with just a few clicks. The model quantifies TCOEs and CSRPs for up to 12 publicly traded stocks at any one time

Quantify TCOEs, CSRPs, and market betas for your exact date of value

ktMINE provides hands-on access to the most comprehensive royalty rate data available. This interactive database provides direct access to royalty rates, full-text license agreements, detailed agreement summaries, and statistical analysis. With user-friendly search functionality and sophisticated data mining capabilities, ktMINE quickly finds market comparables from 18,000+ licensing agreements and 70,000+ royalty rates, with new agreements continuously added.

Find true market comparables with ktMINE licensing agreements...

- Run unlimited searches and view unlimited agreement summaries. ktMINE houses thousands of public agreements and includes license agreements, service contracts, referral agreements, and more!

- Easily search the database to find true market comparables—ktMINE analysts review every agreement in the database using a rigorous process to ensure all key licensing terms are accurately captured and categorized

- Get in-depth summaries and analysis tools—ktMINE’s summaries list an agreement’s key licensing terms and provide access to the full agreement details. The database’s “analysis center” provides charts and tables that quickly reveal big-picture context and trends for an entire set of agreements

Day passes and annual subscriptions available. Please call 1-503-479-8200 for details.
RCReports

Reasonable compensation reports that are backed by methodology that combines IRS criteria, court rulings, and geographic data.

Practitioners have welcomed the launch of RCReports, the new platform created especially for business appraisers, and early feedback indicates the gap in compensation resources may be a problem of the past. RCReports delivers a streamlined solution built on 12.9 million wage data points and a proprietary system. Heralded by CPAs, business appraisers, forensic accountants, and attorneys as the new must-have resource, RCReports generates lightning fast reasonable compensation reports that are objective, accurate, and backed by methodology that combines IRS criteria, court rulings, and geographic data.

Reasonable compensation calculations in a matter of minutes...

- Cost-effective: Quickly and easily run a reasonable compensation analysis for your clients in a fraction of the time with the RCReports online tool. Complete in mere minutes the analysis that used to usually deplete hours of your time.

- Defensible: All reasonable compensation reports contain an independent, unbiased reasonable compensation figure that you can rely on for IRS examinations and litigation engagements. Every report includes supporting resources, including case law, IRS rulings, white papers, and more!

- Accurate: Easily choose the approach that best fits your engagement, or run multiple approaches and reconcile them to develop accurate wage data supported by an independent source and forecasts

Your Time and Compensation (Sample Data from RCReports)

Price: $749/year (basic) . $1,049/year (premium)
Business Reference Guide Online

Confirm the accuracy of your valuation with benchmarking and pricing rules of thumb.

The Business Reference Guide (BRG) is still the essential guide to benchmark and price businesses and franchises. With up-to-date rules of thumb and industry and pricing information for nearly 600 types of businesses, the BRG is a vital tool for any stakeholder in a privately owned business. With the Business Reference Guide Online Database, users enjoy the BRG data they’ve come to depend on with additional benefits such as keyword searching, continual updates throughout the year, and more! In addition, the online database includes a a print copy of the current year’s BRG.

Stay current with the business valuation profession and earn CPE credits with BVR’s training programs featuring business valuation thought leaders.
Connect with the experts! BVR's wealth of training opportunities are ideal for the financial or legal professional looking to stay current with the most pressing issues in business valuation. BVR offers several options for your training needs, whether you are a single-person firm in need of CPE or a large firm in need of a license to train your entire staff. Check out the various training options and let us customize a solution for you.

### Training Passport/Passport Pro
Access training all year with the Training Passport and Training Passport Pro. Passport subscribers receive access to live webinars, plus audio recordings, transcripts, and ancillary materials. Don’t miss upcoming sessions on important topics such as:

- Fairness Opinions and Projections
- Goodwill
- Discounts for Lack of Marketability
- And more!

### eLearning Courses
eLearning courses offer specialized training on your schedule, from any location, on any device. Benefit from access to the combined knowledge of numerous experts and engaging multimedia content including videos, quizzes, downloads, infographics, and more. Some courses include:

- Valuing Early-Stage Companies
- Valuing Minority Interests
- International Cost of Capital

### Special Series/Workshops
Stay current with the latest changes in some of business valuation's fastest-moving fields. BVR's special series of webinars and deep-dive workshops are presented by the foremost experts in their field. Important topics covered include:

- Fair Value
- Healthcare
- Intellectual Property

### Training Library
Make the recordings and transcripts of BVR's events an indispensable addition to your valuation reference library by purchasing each individually or with a subscription to the Desktop Learning Center. Train your staff on important topics, including:

- Opportunities That Exit Planning Provides
- DLOMs and the IRS
- Write Like an Expert Witness

### Live Webcasts and Partner Events
BVR is proud to partner with the AAML, ASA, and many other professional associations to bring together top valuation experts and legal professionals for unique live events around the country. Events include:

- AAML/BVR National Divorce Conference
- Houston’s ASA Energy Conference
- ASA/USC Fair Value Conference
- And many more!

*All webinars and workshops are also available for individual purchase.*
