

# COST OF CAPITAL PROFESSIONAL

A powerful platform that provides a simple and transparent way to estimate cost of capital.

## SIMPLICITY

The Cost of Capital Professional's intuitive interface saves you time by quickly calculating your cost of equity & WACC estimates.

## TRANSPARENCY

Once you've completed your calculations, you can export your findings easily into Excel. You will always see the components of your cost of capital, how the figures were calculated, and the citations of all sources used.

## CREDIBILITY

The data is from trusted sources including Federal Reserve, Dr. Aswath Damodaran, etc., Salvidio & Partners, and CRSP. The tool allows you to calculate COE estimates using the CAPM and Buildup Method.
