

Stout Restricted Stock Study

Your Winning Recipe to Determine a Discount for Lack of Marketability

Stout Ingredients

770+ transactions

60 data fields

DLOM Calculator

Inflation Adjustor Tool

Quarterly Updates

Have your cake and eat it, too.

The Stout Restricted Stock Study provides empirical support to quantify marketability discounts. With 770+ rigorously screened transactions and up to 60 data fields, you can present your DLOM conclusions with confidence.

Data Integrity

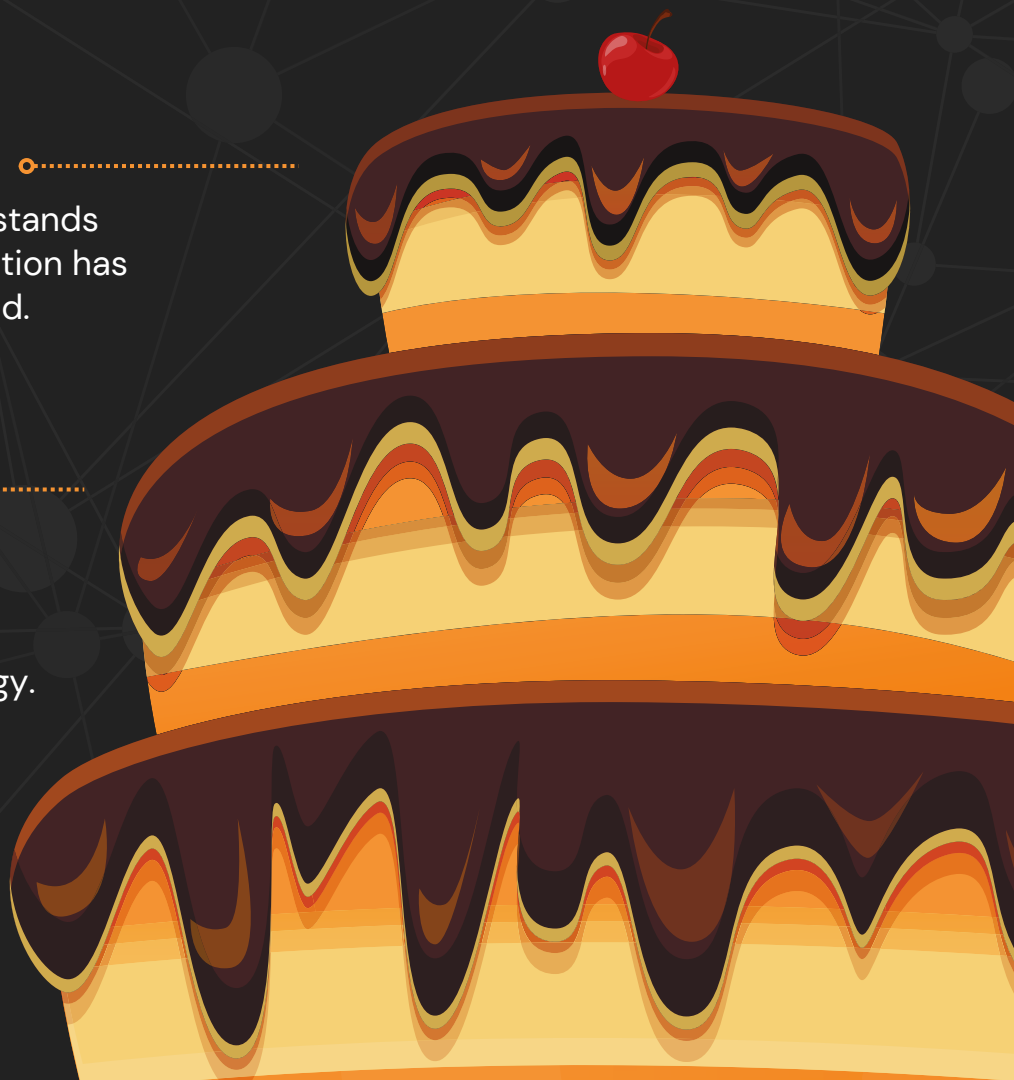

Ensure your DLOM withstands scrutiny - every transaction has been rigorously screened.

Efficiency

Save valuable time with the easy-to-use toolkit that allows you to easily walk through the stout methodology.

Trust

Stout RSS has been around for 20+ years and is a trusted resource for 90% of the profession.
