

# Bizminer

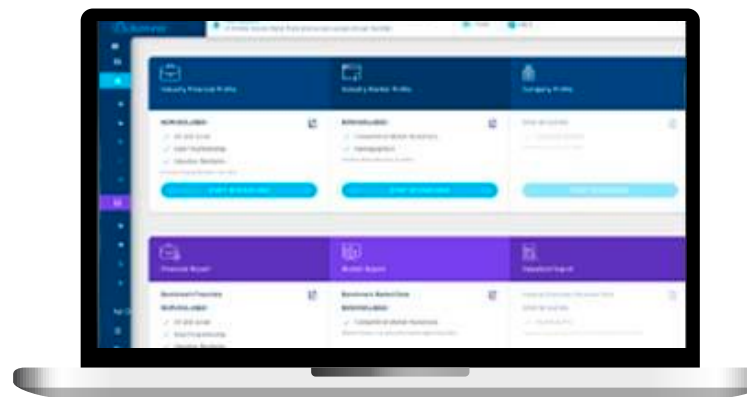

Single reports  
and various  
subscription  
options available.

## Industry-specific financial data from thousands of U.S. market areas

Bizminer has delivered quality online analytical content to valuation professionals for 15 years. Savvy valuation professionals regularly access Bizminer's robust database of financial statements, valuation tools, and market environment analytics for over 9,000 lines of business specific to local and national markets. This platform consistently delivers new reports and information with market data refreshed monthly and financial content twice a year. The reports present to-the-point intelligence in easy-to-read, easy-to-customize, and easy-to-communicate formats.

## Benefits of Bizminer

- Save time and money – Bizminer has the most cost-effective industry and geographic data and covers 9,000 industries
- Enter or upload your subject company information and benchmark it against its peers
- Search the most current data – Bizminer uses more sources than any other similar report. Sources include the IRS, U.S. Economic Census, Bureau of Labor, and more
- Get access to every report with the Bizminer Pro subscription option, which includes over 5 million reports
