FactSet Mergerstat/BVR Control Premium Study is an online searchable database that generates empirical support for quantifying control premiums, implied minority discounts (discount for lack of control), and public company valuation multiples. Quickly and easily search transactions of public companies – the data includes the control premium, the implied minority discount (discount for lack of control), and up to 5 valuation multiples for each transaction.

Benefits of the Control Premium Study

- Defend your control premiums, minority discounts (discount for lack of control), and valuation multiples with absolute confidence
- Rely on empirical support of 120 years of detailed market transaction data, updated quarterly with new transactions
- Minimize research time – the FactSet Mergerstat/BVR Control Premium Study is the most comprehensive and trusted source for control premiums, minority discounts (discount for lack of control), and takeover transactions
- Get free access to the online Quarterly Control Premium Study Report delivered via email as a PDF
