

ktMINE

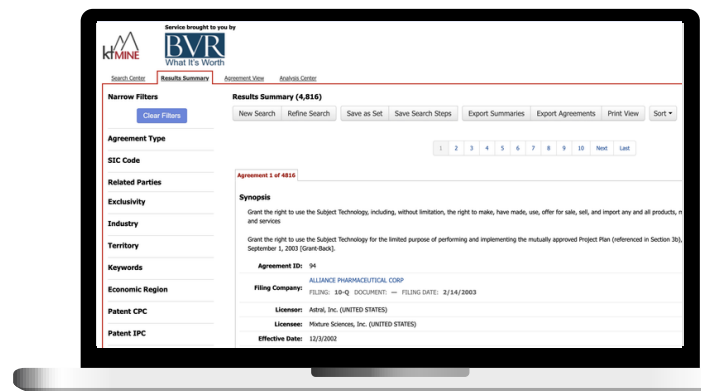

**Subscription and
day pass options
available**

Direct access to royalty rates, full-text license agreements, detailed agreement summaries, and statistical analysis.

ktMINE provides hands-on access to the most comprehensive royalty rate data available. Get direct access to royalty rates, full-text license agreements, detailed agreement summaries, and statistical analysis. With user-friendly search functionality and sophisticated data mining capabilities, ktMINE quickly finds market comparables from over 23,000+ non-redacted IP license agreements and 70,000+ royalty rates entirely sourced from material contracts

Benefits of ktMINE

- **Run unlimited searches and view unlimited agreement summaries** – ktMINE houses thousands of public agreements and includes license agreements, service contracts, referral agreements, trademark agreements, and more
- **Easily search the database to find true market comparables** – ktMINE analysts review every agreement in the database using a rigorous process to ensure all key licensing terms are accurately captured and categorized
- **Get in-depth summaries and analysis tools** – ktMINE's summaries list an agreement's key licensing terms and provide access to the full agreement details. The "analysis center" provides charts and tables that quickly reveal big picture context and trends for an entire set of agreements
